

Hello everyone, I am Jenelle Lee from 21SH19 and my CCA is Chinese Orchestra and Guzheng Ensemble.

Having spent 4 years in NJC as a Junior High student, I am very thankful for the wealth of programmes and opportunities that NJC has provided me with. More significantly, I have really come to cherish the moments I've had with my friends and teachers, as their unyielding support is what has motivated me to keep going even during trying times.

One piece of advice I would give to NJCians is to always just do your best. It is easy to feel demoralised when we are falling behind others in our studies, or when we feel that we may not be in control over other aspects of our lives. But we need to remind ourselves that we all have our unique strengths, even on days when we feel defeated. We all have our different journeys embark on, and we forge ahead, knowing that we possess the abilities to do well. It is alright if we need to take a breather and have a rest day; just be patient, and continue to persevere.

This personal belief of mine has accompanied me all this while, and it has led me to receiving this award. I am grateful for this affirmation, and I believe that every student in NJC will be able to achieve whatever they set out to do, while also positively impacting society along the way.
