NATIONAL JUNIOR COLLEGE
52nd COLLEGE DAY CELEBRATION

Steadfast, We Forge Ahead

Hi everyone, I am Sindhura Rajiv Jain from 20SH21, and I had the opportunity to represent the school in the Tech4Good Innovation Challenge, along with my teammates.

For those few months, my teammates and I were busy coming up with new solutions to help the deaf and those hard of hearing in our community. Throughout this journey, we've been privileged to receive advice and mentorship from Mr Yap, as well as our community partner and mentor.

I am also thankful for being given the creative freedom to explore various sources and experiment with different ideas throughout the course of our project. I am grateful to the College for providing our team with this opportunity, the valuable guidance and support that we received from our teachers and mentors along the way. I would also like to extend my sincere gratitude to my encouraging teammates Amirthaa, Bharagth and Kabil, and the organizations Google, SG Enable and Engineering Good, who have supported us along the way.

With the support that we have, we could easily take up opportunities given by NJ and play our part in the community. Even as we spend the majority of our JC years studying, it is important that we focus not just on academic achievement, but also try to make our experiences more meaningful by contributing to the community.

In the future, I hope to dedicate my time and effort towards expanding the project as well as taking up more opportunities to help others. Let us continue to serve our community, with civility, altruism, resilience and enterprise. Thank you!
